### **Rimbang Baling Block (B7001, Map 1)**

PT. Jasa Karya, a contractor of PT. Riau Andalan Pulp and Paper (PT RAPP), a pulp subsidiary of APRIL in Riau, is logging in natural forest of Pulau Padang (Kuantan Singingi District) in the vicinity of Rimbang Baling Wildlife Reserve. The timber from this logging operation is supplied to APRIL.

*Eyes on the Forest* investigation in July 2005 also found timber transportation document to go along with truck No. BM 8492 AS, serial No.09-107. Below are the information found on the document.

- Timber Transportation Serial Number : RAPP. 987701
- Name of Concession : PT. RAPP
- District Issued : Kuantan Singingi
- Name of Company : RAPP
- Initial of Driver : Sp
- Destination of Timber : PT. RAPP

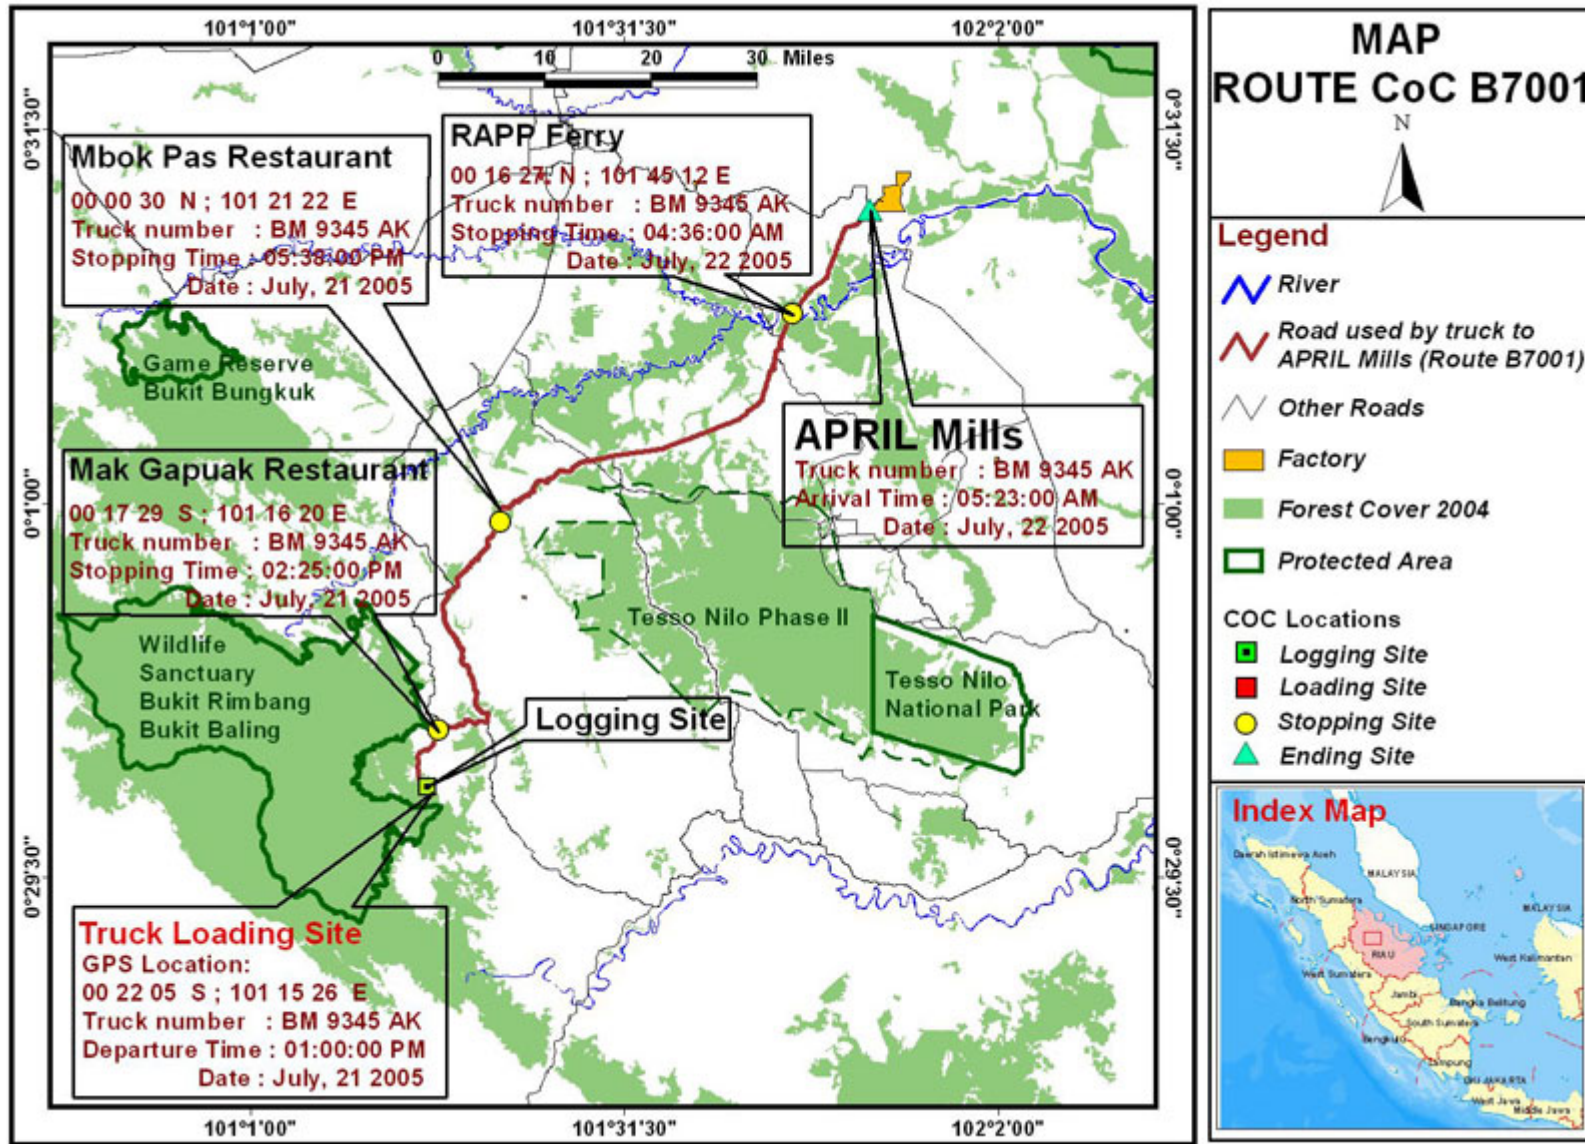

In its logging operation PT. Jasa Karya is using APRIL's Industrial Timber Plantation License (IUPHHK) issued by the Forestry Agency of Kuantan Singingi District. The map issued by Riau Forestry Agency in 2005, confirmed that the logging location was given to APRIL under industrial timber plantation license, issued by the Ministry of Forestry Decree dated on 22 February 2001, ref. 256/Menhut-VI/2001.

*Eyes on the Forest* field investigation found that in its operation, APRIL's partner, PT. Jasa Karya, cut trees with diameter above 20 cm while other trees with diameter below 20 cm were left uncut. (The Ministry of Forestry Decree No. 21/Kpts-II/2001, dated on 31 January 2001, however, stated that one of the criteria of land that can be granted IUPHHK-HT is an area that vegetation does not consist of trees above 10 cm diameter for all type of trees with timber potential less than 5 m<sup>3</sup> per hectare).

### **Libo Block (B8004, Map 2)**
